

Date / Time	Vendor Question	Answer (Response)
01/22/2024 - 09:59	<p>Do you have a desired floor plan? If so, would you be able to send over the layout? Is a Winnebago E-450 with a fiberglass body an acceptable alternative for your chassis? The Interior ceiling is called out as textured fiberglass with polypropylene (PEPP) headliner. Please clarify if you want the ceiling to be fully wrapped with PEPP or just a specific section.</p>	<p>No, there is not a desired floor plan. However, we would like the option of an open floor plan with moveable furniture that can function as a classroom as well as a one-on-one setting. If the width, length and height meet the proposal's specs.</p> <p>Yes, the preference is to have the ceiling fully with fiberglass with polypropylene (PEPP) for the interior ceiling.</p>
01/31/2024 11.09	<p><i>"The mobile library will support 4 people minimum, 6 people maximum"</i> The only seats approved for riding positions when the vehicle is in motion are the driver and passenger. <u>Will you be facilitating any other passengers while the vehicle is in motion?</u></p> <p><i>Basic dimensions: Mention exterior width at 100 inches" and maximum interior width at 10ft '.</i> <u>Can we assume 102" max exterior width and 96" max interior width?</u></p> <p><i>"Lighting mentions fluorescent lighting."</i> <u>Will you accept current technology of LED lighting. ILO fluorescent?</u></p>	<p>No, we will not be facilitating any program while the vehicle is in motion.</p> <p>Yes, you can assume the measurement to be max 102 inches exterior and max 96 inches (8ft) interior.</p> <p>Yes, the current technology will be accepted in terms of the LED fluorescent.</p>

	<p>"Sidewall asks for .125" commercial aluminum sheeting." <u>Will you accept fiberglass reinforced composite used in numerous specialty vehicle construction applications?</u></p> <p>:Performance bond:" <u>Would you accept a bid that does not include the performance bond or list it as an option as these bonds can be costly based on the total price?</u></p>	<p>We accept fiberglass usage in the interior composite of the vehicle.</p> <p>All bids require performance bond to be submitted .</p>
<p>01/31/2024 01:32</p>	<ol style="list-style-type: none"> 1. Will the library except the standard vehicle warranty, Winnebago warranty and upfitter one year warranty? 2. Is there a requirement for more than two people to travel in the vehicle at a time? 3. The vehicle and body information specified does not match the E450 chassis and the Winnebago body. Is this an acceptable chassis/body? Specifications to be provided in bid documentation. 4. Vehicle tank size may be smaller on the standard chassis pool vehicle. Is this acceptable? 	<ol style="list-style-type: none"> 1. It is preferable to go beyond the standard. Warranty period, coverage, and availability of technical support will be considered when rating proposals. 2. Only two people will travel. the driver and passenger at a time. 3. The RFP listed other options of chassis (Ford, International, Freightliner) that are recommended. So, if the E450 chassis is not suitable an alternate can be selected from the other listed chassis. 4. With the consideration that the generator gas tank will be connected to the vehicle tank, alternate sizes may be considered.

	<p>5. Interior color selections on the chassis may be standard from the chassis pool. This greatly improves timeline versus special ordering. Is this acceptable?</p> <p>6. Ford E450 chassis with Winnebago body comes with standard backup camera and side cameras activated with turn signals. Do you require an additional 360 camera system with DVR and more cameras?</p> <p>7. Is spare tire shipped loose a hard requirement or can it be an option?</p> <p>8. Allison transmission is on Freightliner diesel engine not Ford. Will standard gasoline Ford engine be acceptable?</p> <p>9. Bumpers are standard from Ford, not heavy gauge steel. Is this acceptable?</p> <p>10. The windows in the entry door typically have two fixed windows. Is this acceptable?</p>	<p>5. Yes, this may be acceptable.</p> <p>6. Yes, 360 cameras are required with any chassis selected.</p> <p>7. Spare tire may be included be an option.</p> <p>8. This can be acceptable, but other options will be considered with the final selection.</p> <p>9. Standard bumpers from Ford can be acceptable, but other options will be considered with the final selection.</p> <p>10. Yes, but other options will be considered with the final selection.</p>

	<p>11. Do you require fixed windows in the wheelchair lift door?</p> <p>12. In the door section you mention manual or electric. Is this a reference to exterior steps for the side entry door?</p> <p>13. Body construction is standard fiberglass from Winnebago. Is this acceptable?</p> <p>14. Floor material structure will be standard from Winnebago. Is this acceptable? Finish will be from upfitter, color TBD post award.</p> <p>15. Roof will be standard from Winnebago. Is this acceptable?</p> <p>16. Interior lighting will be standard LED versus florescent. Is this acceptable?</p>	<p>11. No, fixed windows are not required.</p> <p>12. Yes, that is in reference to the exterior steps for the side entry door.</p> <p>13. Yes that is acceptable, but other options will be considered with the final selection.</p> <p>14. Yes, that is acceptable as long it meets the requirement listed in the RFP, but other options may be considered with the final selection.</p> <p>15. Yes, that is acceptable as long it meets the requirement listed in the RFP, but other options may be considered with the final selection.</p> <p>16. Yes that is acceptable, but other options may be considered with the final selection.</p>

	<p>17. For the one Acore cart, where will it be located? Do you require uprights for attaching to wall?</p> <p>18. Do you require L-track in the flooring for strapping items while in transit?</p> <p>19. For technology kits and laptops, do you have size information? Should there be for these to charge in transit or will they be in a cabinet?</p> <p>20. What type of pull-down screen shades are required? Do you have a make or model number?</p> <p>21. Would a standard rooftop AC with 15,000 BTU be acceptable? This is the industry standard for this vehicle platform.</p>	<p>17. It is preferred that vendors provide options in their plans, with the ability to attach the cart to the wall as an ideal feature.</p> <p>18. All moveable items will need to be secured while the vehicle is in transit. Any solution for this is acceptable.</p> <p>19. There is no sizing information for the laptop and technology kit, but all charging storage options will be considered.</p> <p>20. The vendor should present the best option(s) in the submitted proposal.</p> <p>21. The best standard for the vehicle's platform is acceptable, as long as other requirements are met.</p>
--	---	---

	<p>22. Do you require a fuel-fire heater?</p> <p>23. Ceiling from Winnebago is a standard high-quality light-colored vinyl. Is this acceptable?</p> <p>24. The portable lecture stand for instructor; do you have a make or model? Where will it be stored?</p> <p>25. Vehicle seating does not swivel. Is this acceptable?</p> <p>26. Would you prefer custom white board finish laminate cabinets or aluminum cabinets for over each workstation?</p>	<p>22. The best and fastest heating system for the vehicle will be considered.</p> <p>23. Yes, that is acceptable as long it meets the requirement from the RFP, but other options will be considered with the final selection.</p> <p>24. A specific make or model has not been identified. Ideally the vehicle could house a strong retractable stand which could be stored in a closet or secured while the vehicle is in motion.</p> <p>25. Yes, that is acceptable, but other options will be considered with the final selection.</p> <p>26. All options will be considered.</p>
--	---	--

	<p>27. The interior monitor is 55" but not foldable. Is this acceptable?</p> <p>28. Where would you like the pull down projector screen? Will you have your own projector to project onto it?</p> <p>29. What location will the foldable/collapsible/pull down partition be? Is this for every workstation or to divide a part of the vehicle?</p> <p>30. The vehicle is ADA accessible not ADA compliant unless all workstations are folded down. ADA complaint requires 60" of turn space. Is this acceptable?</p> <p>31. Would you like pricing on a lithium ion battery versus current specified batteries?</p>	<p>27. Yes, a non-foldable interior monitor of 55" will be accepted, but other options will be considered with the final selection.</p> <p>28. The pull-down projector screen should be in a space that allows the best viewing for all customers on the vehicle, classroom style or individual. A built-in projector is ideal.</p> <p>29. A partition will divide part of the vehicle to create a separate space, as needed.</p> <p>30. Yes, this is acceptable.</p> <p>31. Alternate strategies for batteries may be considered during proposal review.</p>

	<p>32. For the exterior and interior digital screens for programming, are those the monitors described above? Do you need HDMI connections to both at the same time? Where would you like the connection?</p> <p>33. For the cell phone booster antenna, do you have a make/model number?</p> <p>34. What type of computer conduit and will this be shipped to us prior to production?</p> <p>35. Do you require graphic design or only wrap pricing?</p> <p>36. Would you like an option for solar panels?</p> <p>37. There is mention of NC taxes and registrations. We are not in NC, and we typically allow you to register the vehicle after delivery. Is this acceptable?</p>	<p>32. For the interior, the HDMI connector at the portable lecture stand for instructors is preferred. For the exterior, two connectors are preferred: one from inside and the other from outside.</p> <p>33. The best and technology suitable with the wireless router that was given in the RFP will be considered.</p> <p>34. No conduit has been selected, nor will one be shipped prior to production. Any suitable options will be considered.</p> <p>35. The graphic design and wrapping may be priced separately.</p> <p>36. Yes.</p> <p>37. Yes that will be acceptable for vehicle registration.</p>
