Updated Telework Policy

MT informed the Trustees The Library, as a part of the County's operations, has been working under a telework policy that was established countywide since the COVID-19 pandemic. However, the Library and some departments of the County were practicing telework policies prior to the pandemic. With the County Manager's declaration that all telework policies will end starting June 30th, the Library looked to determine whether we would align with the County's policies and practices. Over the

last couple of months, the Senior Leadership Team has been engaged with staff about the change, the proposed change in policy coming from the County, and also asking staff for their thoughts on such a policy. The Senior Leadership Team took all of that into consideration and brought forth a recommendation to the Board regarding the Library's telework policy. Ms. Angie Myers explained the changes that will be made to the policy.

- Telework Policy will be amended to align with Mecklenburg County's policy
- The updated telework policy will go into effect on September 1, 2024
- Policy will be amended to remove references to established schedules:
 - Employees are permitted to work from a remote location within North Carolina or South Carolina for up to two days per week
- Flexibility remains (grounded in business needs) through the Work Options Policy, including:
 - Flextime
 - Compressed Work Week
 - Telework

Mr. Thomas requested a motion to approve the updated telework policy. On a motion by Dr. Woods and seconded by Ms. Brookhouse, the Trustees unanimously approved the amendment to the Library's telework policy.

Committee Reports

Finance Committee

Ms. Srinivasan and Ms. Angie Myers provided the following updates:

FY 2024 Budget Adjustments & Transfers

- Ms. Myers informed the Trustees that the \$10,710 adjustment is for Flight Fund round 4. These funds from the Foundation allow a lot of staff driven projects across a variety of branches and outreach programs to be brought to fruition. This has been a tremendously successful initiative at the Library spurring innovation, great ideas, and exciting programs. There is also a \$2,200 gift for ImaginOn that will be provided to the branch for general operating purposes.
- Ms. Myers informed the Trustees about the two budget transfers. The Library is requesting that \$50,000 be moved out of Miscellaneous and into Technology & Equipment to cover some printing overages. There is some underspending in Miscellaneous that can cover the overage. The Library is also requesting that \$150,000 be moved from Professional Services to Salaries & Benefits to cover the overage in that category. The Library is asking for a reclassification of \$390,000, the organization's Interest Revenue. It has historically been recorded in the Library Fees category, but the interest has grown over the years and so it makes sense to move these funds to the Other category. This is to ensure that it is in the proper category for budget and planning purposes. Interest Revenue will be recorded in the Other category in FY2025 as well.

Mr. Marcellus Turner provided the following updates:

MT asked Ms. Myers to review the 2025 Holiday and Closure Calendar with the Trustees. Ms. Myers explained that
this calendar aligns with Mecklenburg County's holiday and closure calendar except for October 13th, Indigenous
Peoples' Day. The County is not closed on this day, but the Library is closed so that employees are able to
participate in Staff Day, a day of fellowship and staff development. The Library closes at 5:00pm on two occasions,
November 27th and December 31st. Summer hours began on May 23rd and conclude on September 2nd.

Mr. Thomas requested a motion to approve the 2025 Holiday & Closure Calendar. On a motion by Mr. Helweg and seconded by Ms. Brookhouse, the Trustees unanimously approved the 2025 Holiday & Closure Calendar.

MT asked Mr. David Dillard to inform the Trustees about the RFQ for the new Sugar Creek Library location. Mr.
 Dillard explained that the Library had previously received approval to relocate and expand Sugar Creek Library. The funding for this project has been approved and so the next step in the process is to have Mecklenburg County prepare and advertise the RFQ.

Mr. Thomas requested a motion to approve the Charlotte Mecklenburg Library CEO or designees to work with Mecklenburg County Asset & Facility Management to prepare, advertise, and review Requests For Qualifications (RFQ) for the selection of the Architectural and Engineering firm necessary to complete the new Sugar Creek Library project pursuant to the Selection Policy, to negotiate the terms of such contract, and to execute the successfully negotiated contracts. On a motion from Mr. Helweg and seconded by Ms. Montross, the Trustees unanimously approved the action item.

Mr. Dillard informed the Trustees that another step in the Sugar Creek Library relocation & expansion project is the selection of the construction manager. Mr. Dillard explained the differences between the Competitive Bid (Design-Bid-Build) and Construction Management At Risk contract methodologies. With the Construction Management at Risk (CM@Risk) project delivery method, the construction manager will assist the Library with scheduling, constructability, and budget control prior to construction and the CM is accountable for delivering the project on-schedule and within budget during construction. Mecklenburg County, Charlotte Mecklenburg Schools, Central Piedmont Community College and the City of Charlotte have all successfully utilized the Construction Management @ Risk methodology. The recommendation to the Board is to approve the Construction Management At Risk contract methodology for the Sugar Creek Library relocation and expansion project.

Mr. Thomas requested a motion to authorize the use of the Construction Management @ Risk (CM @ Risk) contract methodology for the Sugar Creek Library relocation & expansion project and authorize the Charlotte Mecklenburg

Library CEO or designees to work with Mecklenburg County Asset & Facility Management to prepare, advertise, and review Requests For Qualifications (RFQ) for the selection of the Construction Manager for the new Sugar Creek library pursuant to the Selection Policy, to negotiate the terms of such contract and to execute the successfully negotiated contracts. On a motion from Dr. Woods and seconded by Ms. Montross, the Trustees unanimously approved the action item.

• MT asked Mr. Tony Tallent to inform the Trustees about the new artwork installed at the Plaza Midwood Library. Mr. Tallent explained that the Library is currently completing an initiative to add artwork to three libraries in the system, Plaza Midwood, Pineville, and South Boulevard. The first piece of artwork was installed at Plaza Midwood on Sunday, June 23rd. The painting is directly behind the Access Services Desk and the artist is Nico Amortegui. Mr. Amortegui is originally from Bogotá, Columbia but has lived in Charlotte for many years. His art style is described as neo-expressionism and this piece embraces urban philosophy while also honoring the natural world. Mr. Amortegui does projects locally as well as internationally.

- MT requested that Mr. Dillard provide an update on the EV charging stations that were previously proposed to be installed at some of the library branches. Mr. Dillard reminded the Trustees that the Library was previously approached by a group who had funding for installation of EV charging stations, and the Library was exploring 3 locations in Charlotte, Allegra Westbrooks Library, South County Regional Library, and Steele Creek Library. The Board had asked the Real Estate Committee to do a deeper in-depth dive on the impact, and whether it is part of the core mission of the organization. As the Real Estate Committee was completing this research, the funding for this project dried up. Since the commitment was to consider installation at appropriate locations if the funding was not coming from the library, the committee did not move forward with the project. Mr. Dillard informed the Trustees that the Library could potentially continue this EV charging station project if new funding was found. The Real Estate committee would then make a formal recommendation for the inclusion of the EV charging stations at appropriate branch locations.
- MT reminded the Trustees that the raw data collected by Karen Dash, the Strategic Direction Consultant, was emailed out to all Trustees for review prior to the August 2nd Board retreat.
