Real Estate Committee
Brandon Neal and David Dillard provided the following updates:
Action Item: Authorize CEO Marcellus Turner to execute a lease amendment to extend the term of the land lease for the University City Regional Library for an additional term of two years (from 12/31/22 to 12/31/24).
Staff Contact: David Dillard, Charlotte Mecklenburg Library Real Estate Leader

Background
The Public Library of Charlotte and Mecklenburg County executed a 30-year ground lease with The Charlotte-Mecklenburg Hospital Authority in 1990 and built the 24,500 square foot University City Regional Library. The lease was amended in 2019 to extend the term for an additional two-year term (through 12/31/22). This amendment will extend the land lease for two additional years (through 12/31/24) but will have an option for the Library to terminate with 30 days prior written notice so we can end the obligation once we have moved into our new facility.

Rationale
It will take longer than the previously extended lease termination date to complete the development and purchase of the new University City Regional Library. Therefore, the Library has negotiated an additional two-year extension of the land lease to allow the time necessary to complete the design, perform the construction, and close on the purchase of the new facility.

After some Board discussion and on a motion by Charles Thomas, the Board unanimously approved the action item authorizing CEO Marcellus Turner to execute a lease amendment to extend the term of the land lease for the University City Regional Library for an additional term of two years (from 12/31/22 to 12/31/24).

Communication and Speaking Points (Asha Ellison)

- **Community Information on New Main Library**
  - “The Vision for New Main Library” can be found on the Library’s website at cmlibrary.org, our Building Projects page or directly at [https://cmlibrary.org/future-main-library](https://cmlibrary.org/future-main-library).
  - The page is reviewed by the Main Library project team and updated as needed.
  - This page explains the history of Main Library, the vision for its future and the journey to getting there. It includes info on the features of new Main, funding and support for the project including the CommonSpark campaign, other information about development along the North Tryon corridor and FAQs.

- **Frequently Asked Questions**
  - An updated FAQ document is in progress. We are capturing questions as they arise, but also actively working to get ahead of questions we anticipate from the community.
  - Most frequently asked question is “When will construction begin on the library/why hasn’t there been progress, and will this impact the projected completion time?” Our answer has been “This is a complicated project with numerous entities involved. While nothing structural appears to be occurring
from the exterior, there has been much activity on the inside including salvage, decommissioning activity, and environmental work, all of which are necessary prior to demolishing the building. We are also making sure the new Library and the renovation of the McGlohon and Duke Energy theaters are coordinated with the master developer’s work. Design and pricing efforts continue so that we can be prepared to start construction as soon as we have the construction drawings and building permits. We anticipate the demolition will commence this fall if the master developer’s deals are complete.”
